

ABSTRACT

This report is the reflection and also the journey of my 6 Months internship period along with the highlights of what I learned through errors, work responsibilities, and the importance of internship program of “Great Lake E-Learning PVT LTD”. The knowledge I have gained as a new developer on web application development, new frameworks and also how to work in an office environment is splendid. As an intern, my work was to learn and focus on web application projects as well as Backend Developer and Database Management too. In this report, I have focused my work territory and explain my achievements which I have got through my internship at “Great Lake E-Learning PVT LTD”. In the 6 month summer training I have studied about MERN full stack from Front end to Backend of Project along with Database Management . I chose this training because it helps to develop dynamic web pages, and it is useful for my career in Information technology Industry. Under the guidance of “Mrs Shruti Gupta” I learned various new technique of building websites from basics to advanced which is the very foundation of big problems solved at various levels in the industry. Apart from that I learned to change the functionalities of complex web pages and make them more efficient by managing. If we develop web based application that is very useful for us because we can access it from anywhere in the world. It is very helpful for our daily life. That is why I choose subject of my report as “MERN Full Stack Developer ”. Training in Great Lake E-Learning PVT LTD added huge experiences in my upcoming career. Solving real life problems was another key issue. This report takes us through all the details of MERN stack knowledge and experience gathered during this internship period.

TABLE OF CONTENTS

CHAPTER NO.	TITLE	PAGE NO.
1.	INTRODUCTION	1
	1.1 Introduction	1
	1.2 About Duologue Infotech (P) Ltd	1
	1.3 Objective	2
	1.3.1 To gain skills and knowledge	2
	1.3.2 To get field work experience	2
	1.3.3 To enhance our communication skills	2
	1.3.4 To link theory with practice	2
	1.3.5 To build a network	3
2.	PROBLEM STATEMENT AND SOLUTION APPROACH	4
	2.1 Problem Statement	4
	2.2 Solution Statement	4
3.	FACILITY REQUIRED FOR PROPOSED WORK	6
	3.1 Visual Code	6
	3.2 React JS	6
	3.2.1 React Features	7
	3.3 News API	7
	3.4 Express JS	
	3.4.1 Why Express JS	8
	3.5 Mongo DB	
	3.5.1 Purpose Of Building MongoDB	8
	3.6 Node JS	
	3.6.1 Feature of Node JS	9
4.	REAL WORLD APPLICATION	10
	4.1 Conclusion	10
	4.2 Future Scope	10
